THE CRUISER SCOTT

Captured a Whole Fleet of Gamblers Saturday Night.

The gamblers are finding it a little difficult to run the blockade here, now. There was a nest of them pulled some time ago and convicted. On Saturday night Policeman Scott was cruising in the eastern part of town and ran upon a whole fleet of colored gamblers near the Crown cotton mill.

The business was in full blast, the money in full view and the players grew so bold about 2 o'clock Sunday morning that the door was left unlocked. After watching as long as he wanted to, Mr. Scott opened the door and stepped inside. The officer's appearance so dumb-founded the players that they did not attempt to hide the money or the cards.

The policeman says there were about a dozen people in the room, some of them being women. He placed four of the men under arrest and carried them to jail. On the way they had to pass a corn field and Mr. Scott told the men he didn't want to cut down any of the fodder and warned them not to get too near the corn rows.

Only three of them were landed, however, one of them having escaped when the entrance to the jail yard was reached. Those locked up were: Will Merritt, John Lanier and Geo. Ruffin. A pretty good haul, at any rate, for one man.

DISTANT OUTLOOK FOR PEACE.

Loss of the Cuban Capital a Great Difficulty.

London, July 25.—The Gibraltar correspondent of the Daily News, telegraphing Sunday, says:

"According to ministerial admissions, peace is further off now than it was last week. The great difficulty is the loss of the Cuban capital. Senor Gama, the minister of public instruction and public works, is much disappointed and threatens to resign. The administrative haste and bustle in Spain about port defences are prodigious, but who can think that all this means business after what has happened? The heavy French guns, supplied from the Saint Chamond works, have been lying for the last six weeks in the drill grounds at Carabanchel. They are being tested and will be sent to replace the brass and old-fashioned pieces at Cadiz, but the means of handling them are defective, and so, too, is the smokeless powder. However, the military engineers expect that all these defects will be set right."

"Ordinary railroad traffic is almost suspended, as the trains are wanted to take soldiers and marines, with munitions of war, hither and thither." "The field artillery, which was supplied by France before war was declared, was originally centralized at Madrid, but it is now being shipped to the Northern Sierra, where Carlist risings appear. The first brigades at the various seaports are constantly drilling to prepare themselves to deal with burning houses during the bombardments. The engineers have created what appear to be strong defences at Cadiz, but the strength must depend altogether upon the range of the guns."

The Terms of Capitulation Being Carried Out.

QUEEN REGENT WANTS PEACE.

General King Will Command the Next Manila Expedition—The Sickness Among Soldiers.

By Cable to THE TELEGRAM.

Santiago, July 25.—The work of receiving arms and carrying out the provisions of the surrender is progressing admirably. With the exception of those at Guantanamo all the Spanish troops within the territory indicated in General Toral's capitulation have given up arms and surrendered to the United States authorities.

Lieutenant Miley, of Gen. Shafter's staff, who was designated as head commissioner to receive the surrender of the Spanish in the outlying districts, has returned from an expedition and reports he has not had the least trouble in receiving the surrender of the various garrisons.

The Spanish have given up their arms, not only without reluctance, but with feelings of relief at the termination of hostilities. Three thousand stands of arms have been turned over to the Americans.

Rich and influential plantation owners declare that the Spanish guerrilla and volunteers will be as willing to work now as zealously as they fought. They are of the opinion that prosperity will quickly come to the country with peace under the American flag.

The surrender of Guantanamo is of far greater importance than was at first believed. Over seven thousand troops the greater part of whom are seasoned regulars are included in this part of the surrender.

The Spanish army commissioners left yesterday on their return to Guantanamo and stated that the surrender of troops there will be accomplished without the slightest trouble. The reports of fighting being engaged in between the Cubans and Spaniards is untrue.

TO REORGANIZE SPAIN.

Madrid, July 25.—A prominent official said today that the quarrel between the United States and the Kingdom of Spain was much easier of adjustment than is generally believed. He says the queen endeavored to avoid war and desires honorable peace.

He says also that the present government will not initiate a peace movement but that a modified cabinet headed by Zamora will and when the negotiations are concluded will then retire and the country will be reorganized.

Everybody here considers that Spain should treat directly with the United States.

NEXT MANILA EXPEDITION.

San Francisco, July 25.—Gen. King will be in command of the next Manila expedition. Gen. Millen will remain here for the present at the request of Merriman.

Active preparations for moving the troops to embark began this morning. The sickness among the soldiers is increasing.

PROF. FUTRALL HERE.

He Speaks Complimentary of Our Improvement.

Prof. Futrall, of Marianna, Ark., a native of Randolph county, who was mentioned in these columns a few weeks ago as being in the state on a visit to his old friends and relatives, is in the city this afternoon. He is greatly pleased with the improvement made in North Carolina since he left the state twenty years ago, not only in the cities, but in the farming districts. He spoke particularly of the old log houses he used to see having been replaced by handsome frame buildings, well built and painted.

Prof. Futrall attended the national educational meeting in Washington where twenty-five thousand teachers were congregated. He is deeply interested in educational work and speaks with pride of the fact that in his state there is a normal school of one month's duration in every county each year, and every public school teacher is required to attend on pain of losing his certificate.

Prof. Futrall is an exceedingly pleasant gentleman and we greatly enjoyed a call from him this afternoon.

Don't Stop Over.

In referring to the proposed offer of a home in Florida to Admiral Cervera the Observer a few days ago took occasion to give a caution about stopping over. There has been a rapid drift that way in the past few days, and some southern papers are trying to confiscate Schley. In one of the speeches at the Atlanta reunion he was lauded as a hero. The fact is that while Commodore Schley was born in Maryland he hammered the south as hard as he could in the late war. He saw active service in the gulf squadron in 1862, was in all the engagements which led to the capture of Port Hudson in 1863, and in the last year of the war was in command of a steam gunboat in the Pacific squadron.

He is a Yank and a good one too; and, furthermore, he is the hero of Santiago, but the south can't claim him, much as we wish that it could. We must act fair and be content with our Hobson and Blue, and only such as we can claim without a breach of propriety. Our list will be long enough without trying to rob the north. We have a great deal to glory in now, and will have a great deal more before the war ends, and there is no need whatever for stopping over.—Charlotte Observer.

No Definite News Expected for Several Days

FIVE THOUSAND FIGHTING MEN

But Washington Officials Think With These General Miles Will be Able to Carry Out His Plans.

By wire to THE TELEGRAM.

Washington, July 25.—General Miles' expedition has arrived at the point for debarkation which was decided upon on the coast of Porto Rico. Adjutant General Corbin says, however, the administration does not expect to hear from him for several days yet owing to the distance he will have to send to reach the cable station.

Although General Miles has but five thousand fighting men the officers hereafter confident he will be able to accomplish all his plans while waiting for reinforcements.

He will establish a landing basis under the protection of the naval guns of his convoy.

Special efforts are being made to supply him with all the tugs, lighters, and materials for wharves and bridges which he may require. Panama and Seneca will shortly prepare to join General Miles.

EMBARK FOR PORTO RICO. Washington, July 25.—As soon as the transports arrive from Santiago all the remaining troops at Tampa will be embarked for Porto Rico. Orders have been issued to the First Florida, Second and Fifth Maryland volunteers to prepare for embarkation.

The Third brigade is still at Camp Thomas and will leave on Wednesday.

WELL, WILL WE?

Will We Allow the Impudent Threat Verified?

White, the negro congressman from the first district, in a speech at the republican convention in Raleigh, said among other things:

"I am not the only negro who holds office. There are others. There are plenty more being made to order to hold offices. We are the most modest people in the world and don't hold as many offices as we will. I invite the issue."

The white people of the state are told by this negro office-holder that there will be more of them in office and invites the issue. We have fallen upon evil days sure enough, when it comes to swallowing banisters like this thrown out by the black man. In this connection The Wilmington Star declares that there are now more negroes in office in North Carolina than in any State in the Union, and unless democracy triumphs in the election there will be, as White defiantly declared in that speech, more of them, and a good many more. They haven't yet made a fair start. It remains for the white men in North Carolina to say whether this negro's impudent, audacious threat is to be verified.—Charlotte Observer.

No Yellow Fever at Tampa.

Washington, July 24.—Owing to persistent reports that there is yellow fever at Tampa, notwithstanding denials by the Florida state officials, Dr. Brunner, the yellow fever specialist, who represented the marine hospital service at Havana until the outbreak of the war, was directed to make an investigation. He reports that after a close inspection of Tampa it can be stated that there is not a case of yellow fever there.

HOBSON'S CONTRACT.

Has Undertaken to Raise the Cristobal Colon—Confident of Success.

Washington, July 24.—Lieutenant R. P. Hobson came over from New York last night and had a long conference today with Assistant Secretary Allen, Bradford and several other officers of the navy department relative to raising the Spanish cruiser Cristobal Colon. The lieutenant succeeded, while in New York, with arranging the Merritt & Chapman wrecking company for the execution of the plans he had prepared for saving the vessels. The wreckers have promised to get together the pontoons, air bags and compressed air apparatus, which will be required to lift and right the vessels, and they expect to start this material for Santiago from New York on a fast vessel within three days.

Lieutenant Hobson is confident that if the work can be undertaken before a cyclone sets in, it will result successfully. The navy department has given his plans the fullest approval, and he will leave in the course of a day or two for Santiago to supervise the work.

MAKES LITTLE DIFFERENCE.

The last report made by the state prison authorities was the one made in December, 1896, by Hon. A. Leazar who was superintendent of that institution. That report showed the penitentiary as not only self-sustaining, but with a neat balance in the treasury. This was accomplished under democratic rule. The superintendent was not ashamed to make this report. Now, under rep-pop rule, how is it? The governor has swapped off John R. Smith and allowed him to go without making a report, when the law plainly requires a yearly report to be made and sworn to by the superintendent.

The News and Observer says it thinks it knows the reason why no report was made. It ventures the prediction that the public will never get a sworn report.

Well, it makes little difference. For the time being the law requiring a report to be made should be repealed. It would be a pity to require John R. to perjure himself, which, in all probability, he would have to do in order to make a report fit for decent and respectable people to read. We hear enough scandals and disgraces about the present administration without requiring the officers to make them out and swear to them. Afflict us not with a sworn report from the penitentiary!

A NECESSITY.

Some editors prate about the populist party being a creature of necessity. Some so-called democrats say the democratic party had become so corrupt, that people who compose the populist party had to leave it. We must admit they have struck it beautifully! It is refreshing to have these light-dispensing fellows tell us what is the matter with North Carolina politics.

Suppose we grant that they are right, for the sake of argument, and see how far we get. Grant that there were some things in the democratic party which needed reforming and that the populists left the party on that account. Follow them and see what sort of a party they have organized and what has been their record. They declared they were everlastingly and eternally in favor of the free coinage of silver; and they have fused with a gold-bug party and elected gold-bugs to congress. How does that tally?

They declared they were in favor of purity in politics and for reform in state matters; yet they fused with the

republicans and inaugurated the present state administration. This is far enough to go to explode the charge of corruption in the democratic party. We leave it to any unprejudiced man to compare, from any standpoint, the democratic administrations from '76, when Zeb Vance redeemed the state, down to Russell's administration, with the present mismanagement of state affairs.

We submit that the honest populists did not organize the party. They followed the lead of men in whom they had confidence, but who proved unworthy by surrendering arms, ammunition and all to the republicans on the terms of Pie.

It is unfair to charge the rank and file of the populist party with doing this thing intentionally. They have been duped, wantonly and grossly deceived. And it is the program of the bosses to keep on deceiving them.

NORTH CAROLINA

Since the Late Civil War Between the States.

Many articles for the press and many pamphlets have been written since North Carolina threw off the mantle of Old Rip Van Winkle, and entered upon the race to battle for supremacy in the list of states, and it is safe to say since the surrender of the confederates by Generals Lee and Johnston, she has held her own with wonderful progress. Considering the fact that her people were impoverished and a large portion of her wealth thrown to the winds by the emancipation proclamation of Abraham Lincoln she has kept pace with her sister states of the south, in improved farming, mechanical ingenuity and commercial affairs generally. Her various rivers, unsurpassed for locations for factories, are dotted all over her vast territory with thrift and energy. Before the war her products consisted mostly of the raw material, raised in her borders and sent north to be manufactured into goods, she not having necessary improvements in machinery and capital to enter into competition with her northern brethren; now see the difference—of course many years have passed since she entered the race, but she has kept to the front for many years, and today she is second to no southern state in the matter of production and manufacturing.

To see North Carolina as she was in 1865, and North Carolina as she is in 1898, one would exclaim, "It is remarkable and wonderful how she has progressed in all the various lines of prosperity." She was not as fortunate as some of the other states in having multi-millionaires to assist her in her progress, but she had the men who were determined to succeed or perish in the attempt, and today she can hold up her head and say that it was pluck, and perseverance that has carried her safely over the gulf that apparently intended to swamp her.

The writer has been away from the state of North Carolina for the last 23 years, and it is but natural that he, (more than one who has remained in the state all these years) should see the difference in her now. Her towns, which numbered only a few thousand inhabitants then are now cities and respectable cities too—none of your would-be—but actual cities, with from ten to twenty-five thousand inhabitants. Take for instance Greensboro and Charlotte, each vying with the other to reach the high-water mark. Look how they have progressed; back in the sixties they had neither water works, wholesale markets, manufactories, electricity, their streets not paved and the business on a par with any fairly conducted town. Now look at them. Their governments are conducted in city style, with fire engines, hook and ladder companies and their trade equal to any city of higher repute. Charlotte lays claim to having trade with every city in the Union, and today it appears to have the distinction of being the Queen City of the south. The same may be said of Asheville, the "Land of the Sky." The writer distinctly remembers when she had no railroad, when the old stage line from Salisbury (C. S. Brown contractor) paid her daily visits to that ancient burg, and when it would take a week to go to Asheville and return to Salisbury. Now the Old North State has railroads in every section of her state and it is only a day's travel to any part of her borders. Take Salisbury, Greensboro, Statesville, the Twin-City Winston-Salem, Durham, Goldsboro, Newbern, aye, and almost

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off impurities in the blood. every town that had no pretension to business in 1865 are now striving and increasing in size.

Another evidence of prosperity is the prevalence of newspapers and periodicals. Now she has dailies almost everywhere, weeklies at every town or cross-roads, and the tone of her press is far above the average of her sister states. It is sometimes an eye-sore to see a newspaper that pretends to give you the news, and when you pick it up and read it you will find among its headlines an article of "How the Ark Looked When Noah Grounded on Mt. Arrarat." Aside from such instances as I have mentioned, (and they are comparatively few), she can lay claim to having first-class newspapers in every community. Her citizens are ever on the alert for improvement and she is today blessed with a native population who are kind, generous and noble.

Her political status, it is true, has reached a very low ebb, and it is to be deplored, but it is the opinion of the knowing ones that the good old ship of state will return to her wharf next November, and that old North Carolina will swing around and show the world of what kind of material she is made as she has done in giving the blood of her gallant sons in defense of her native soil.

"Carolina, Carolina, Heaven's blessings attend her,
While we live we will cherish, protect and defend her,
Though the scorners may frown at, and wittlings defame her,
Our heart swells with gladness whenever we name her."

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says Mr. W. B. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by C. E. Holton.

McKinley an Obstacle to Peace.

London, July 25.—The Madrid correspondent of the Daily News, telegraphing Sunday, says: The efforts of the government toward peace are meeting with almost insuperable difficulties. Ministerialists say that the chief obstacle is President McKinley's "impressionable character," which is more influenced, they affect to believe by his personal friends and the jingoism in Congress, than by diplomatic counsels.

The President sometimes appears inclined, they say, to negotiate for peace on reasonable terms, but at others he seems determined upon a war of conquest, with a view of convincing Europe that the United States is a great military power which must be reckoned with.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrated me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I fortified myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. E. Holton.

Hospital Train Reaches Atlanta.

Atlanta, July 24.—One hundred and fifty-eight sick soldiers reached Atlanta tonight from Camp Thomas, and were at once provided with cots in the government hospital at Fort McPherson. The men were brought from the Leiter Hospital, at Chickamauga, to enable that institution to accommodate the sick men in the field hospital.

We Get Them, Just the Same.

Madrid, July 24.—The members of the cabinet today visited the Queen Regent. Senor Sagasta, the Premier, says that not all the troops included in the capitulation of Santiago agreed to surrender.

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at C. E. Holton's drug store.

FIERCE NAVAL FIGHT

THE WYOMING'S HEROIC BATTLE WITH THE JAPANESE.

Against Overwhelming Odds the American Commander McDougall Fought One of the Most Daring and Successful Engagements in the History of Marine Warfare.

Strange as it may seem, the Wyom-
ing's oriental battle is an almost un-
recorded chapter of our naval annals,
though it ranks even higher in point of
daring and success against overwhelm-
ing odds than the defeat of the Ala-
bama by the Wyoming's sister ship, the
Kearsarge. But the Wyoming never
was in very great luck as a naval star.
She had her part throughout the civil
war in all the hardest of blockading and
cruising service, and fought well when-
ever she had the chance, but she did
not have the luck of getting into the
papers. She was sent off at the same
time as the Kearsarge to cruise for that
scourge of the seas, the Alabama, and
just missed her by the merest chance
on two occasions in the China seas.

It was in 1883, toward the end of the
dual reign of the tycoon and the mili-
tary, when Japan was in the throes of
civil war, and the forces of the rebel
princes were resisting to the last the
passing of the old feudal system. The
Prince of Nagato was one of these, and
from his tiny kingdom that fronted on
the straits of Simonoseki he declared
himself lord paramount of everything in
sight, including the neighboring seas,
from which he took generous toll as did
ever the pirate chiefs of Tarifa. He
had laid violent hands and hot shot
upon the vessels of various powers, in-
cluding Great Britain, France, the
Netherlands and the United States.

Meantime Prince Nagato throve and
flourished by the strait of Simonoseki,
and failing one day to bring tribute or
blackmail by any other means he fired
on the American merchantman Pem-
broke and killed a couple of her crew.
There was another diplomatic protest of
the combined foreign representatives to
the Japanese government, and Com-
mander McDougall, who happened to be
in port with the Wyoming, suggested
that if the mikado could not take a fall
out of his rebellious subject the Wyom-
ing could and would without much
arguing. This struck the government as
a good thing and an easy way out of
the international difficulty, so McDougall
was given carte blanche to settle ac-
counts with the Prince of Nagato in be-
half of all the powers concerned, and
he forthwith sailed away.

It was the middle of July when the
Wyoming found herself in the strait of
Simonoseki and in sight of the shore
batteries which were a part of the
prince's defenses to seaward. Before
she had time to open on the batteries
two Japanese gunboats loomed up, one
ahead and one astern, in the narrow
strait, and presently a third came cru-
sling out from among the neighboring is-
lands. It was a nasty place for a fight,
McDougall being without charts or pi-
lots, and the odds were more than
enough for Nelson himself, being 48
guns of the three Japanese vessels to the
26 of the old Wyoming, to say nothing
of the batteries on shore. There was
still a chance to run, barring some dan-
ger of grounding in the narrow channels
among the islands, but the idea does not
seem to have occurred to any one aboard
the frigate.

Working to windward of the nearest
Japanese, the Wyoming opened at long
range and worked down on her till,
when close aboard, there was nothing of
the enemy left standing above decks.
The other two vessels had come up in
the meantime and engaged the Ameri-
can on either side, but she lay to and
gave them shot, port and star-board,
till her gunners were smoke blind
and the flame of the guns no longer
served to light the battlefield. The
rolled in white billows over the smooth
waters of the strait. It was desperate
work in the shallow water, but the
Wyoming was the best vessel, and she
outmaneuvered her two opponents from
start to finish, though twice aground
and once afire, with as many men knock-
ed out from splinters and heat as from
the enemy's shot.

Fighting themselves out of one
smoke patch into another, the three com-
batants circled around like two crows
and a kingbird till they had drifted
down in range of the shore batteries,
which gayly took a hand in the game.
But McDougall ran across the bows of
one of his enemies, raked her as he
went and left her a floating wreck, and
then turned his attention to the bat-
teries. The Wyoming's men rigged the
smith's forge on deck and tossed hot
shot into the works ashore till they set
them afire and the soldiers fled, and the
other Japs on the remaining cruiser, de-
ciding enough was as good as a feast,
followed their example.

So McDougall mended his rigging and
patched his bulwarks, and meanwhile
sent word to the recalcitrant prince to
come down and settle or he would sail
inland and shell the royal palace about
its royal owner's ears.

The prince, who was no less discreet
than Colonel Crockett's coon, came
down promptly, and of the resulting in-
demnity \$300,000 fell to the lot of the
United States. It was many years be-
fore this money got into the treasury of
the United States, but meantime the
state department had charge of it and
had invested it so well that there was a
very little short of \$2,000,000 finally
turned over to the government, which,
after all, was pretty good pay for one
day's fighting, with a loss of only five
killed and six wounded.—Washington
Post.

**Blood
Brains
Money**

A sick man can't make money
That's because his brain won't
work. A horse won't do work
unless he is properly fed.
Neither will a brain. If the
brain is not kept in good con-
dition with pure, rich blood,
it won't produce much.

Men who fail, and men who
don't, often have what they call "Nervous Prostration."
Nine times in ten the nervous trouble is purely second-
ary. The real sickness is in their digestion and in
their blood. If a man keeps his digestion in good
order, and keeps his body full of pure, rich blood,
he is never going to be very sick.

Johnston's Sarsaparilla is made for people who
want to get well and stay well. Sarsaparilla is a
simple, "grandmother" remedy, but it cures. It
purifies and enriches the blood and sends it tingling
to every part of the body. That is the way it cures
all ailments of the brain and nerves—cures insom-
nia—cures dyspepsia, rheumatism, scrofula, and
every other blood disease. It clears the complexion,
plumps out the cheeks, and brings back the
sparkle to lifeless eyes.

One Dollar is the price, and One thousand Dollars
is the health-
giving val-
ue of every

Others may sell clothing and shoes cheap enough, but we outclass every place for low prices on Dry Goods and Notions.
